GREECE

SEAFARING IN GREECE – ALL TIME CLASSIC

The Greeks have been a nation of seafarers since time immemorial – no surprise when large parts of your homelands are either islands or virtually inaccessible by land. Homer referred to these waters as his ‘wine-dark sea’, while Helen of Troy was the legendary ‘face that launched 1,000 ships’.

And while this Eastern end of the Mediterranean has been both a highway and a crossroads simply forever, these shores have provided safe harbour for the travellers and adventurers of history. Today their legacy of picturesque harbours, atmospheric harbour towns, stunningly scenic bays and anchorages, Byzantine churches, crusader castles and ancient temples is your playground.

We have seafaring options in Greece to suit everyone. More adventurous sailors should set a course for the Dodecanese or Northern Sporades and Pelion Coast, while those looking for a more leisurely time will enjoy the clement waters cruised by our South Ionian flotillas. The latter coastline plays home to our beach club at Nikiana, whilst Nidri on Lefkas is the home port for our RYA sailing school, Seafarer Training.

If you fancy sailing on a larger yacht with a professional crew to do most of the work, then join our ‘Share a Sail’ programmes in the Cyclades, the Ionian or the Dodecanese isles of the Eastern Aegean.

Finally we offer ‘bareboat’ charters from a range of bases in the Ionian and throughout the Aegean, including the Cyclades, the Saronic Gulf, the Sporades or the Dodecanese, as well as fully crewed Mega Yacht cruises featured in our yacht cruise brochure and website – Whatever your choice, you will be exploring some of the world’s very best!

SEAFARER BEACH CLUBS

LEFKAS & KOS

Back in the eighties and nineties, all you needed for a wonderful holiday was a great beach, some dinghy sailing or windsurfing and a really friendly sea front taverna with a swimming pool as a bonus. Our Beach Clubs in Greece offer exactly this simple formula, with unlimited sailing, superb and scenic beach-front locations, a pool, a taverna and simple comfortable air conditioned rooms, many with sea view.

Why Choose A Seafarer Beach Club?

- We operate small & friendly clubs for up to around 60 Seafarer guests
- Superb beach front locations
- There is plenty of equipment to suit all abilities
- Real personal service from our experienced instructor team
- Dinghy sailing, multihull, windsurf and yacht tuition for all abilities
- We offer Club & Flotilla, plus sail & stay, 2-centre holiday combinations

Our small and friendly beach clubs, Nikiana on the island of Lefkas and Kefalos on the island of Kos, are smaller family run properties in the most idyllic of settings, conveniently close to our flotilla bases for club flotilla holidays. Mountain bikes can be hired for times when you may want a change from sailing, whilst both clubs are located in fascinating areas to explore. Nikiana is featured here, for Kefalos Beach Club which caters mainly for windsurfers, please see our website.

At all our clubs you can be sure of the warm welcome and the friendly atmosphere and service that our smaller clubs are renowned for.

NIKIANA BEACH CLUB

LEFKAS ISLAND - GREECE

Nikiana Beach Club yet again scored the highest ratings amongst our clients last summer and our formula of smaller, friendly and welcoming 'taverna style' clubs like this has certainly won us many regular guests.

Located in Nikiana village on Lefkas Island, this small and perfectly formed beachfront complex has 34 rooms, a fresh water swimming pool and a very good family run taverna in a quiet location with stunning scenery.

The beach is sand and shingle and it's a simple, traditional style property where many of the rooms have either full or partial sea view.

However, it is not without proper 'mod cons', with rooms having a balcony, refrigerator, electric kettle, air conditioning and a TV with satellite channels in every room. Also en-suite bathrooms most having been recently renovated.

Accommodation is offered on a bed and breakfast basis, since the family run taverna on site is too good to miss, whilst the village centre is just a short stroll for a good choice of alternatives. During school holidays (mid July to end August) we operate a kid's club with sailing and beach activities.

NIKIANA BEACH CLUB

LEARN TO SAIL

SOUTH IONIAN AND MID DALMATIA

The warm, sunny Greek and Dalmatian seas are the perfect place to learn or improve your sailing skills and the professionally qualified English-speaking instructors of our RYA-recognised sailing schools are the ideal tutors. Courses are on offer for all abilities from complete beginner up to Coastal Skipper and Yachtmaster preparation on our 'live-aboard' tuition yachts operating from Seafarer's bases in Lefkas in Greece from March until early November and in Sibenik, Croatia from May to October. At certain times of year we organise mile-builder voyages that venture further afield combining mile building and exploration.

Alternatively you can choose to charter one of our tuition yachts exclusively for your own party and we can provide a live-aboard instructor for an RYA course or pre-flotilla ICC training – it's a great way to combine a holiday and sailing course for friends or the family.

Some nights we meet up with our flotilla for social events, and after one week's training many guests progress to skippering a yacht on a flotilla in week two. Courses on our tuition yachts include provisioning for continental breakfast and light lunch daily, plus yacht expenses such as fuel and port charges. Tuition with private charter does not include any catering, fuel or mooring, costs of which are extra, as with all private charters.

Dinghy sailing, windsurfing and powerboat courses are available at Nikianna Beach Club between May and October. Here you can enjoy the accommodation and facilities at the club during your tuition. We also offer 5 week dinghy instructor courses in May, and September.

OUR COURSES

Pre-Flotilla Refresher Course + ICC Assessment 2-3 Days (depending on experience)

If you have yacht and dinghy experience but feel a bit rusty, this course will refresh your techniques for navigation, mooring and anchoring. Once you have regained your confidence, you can undertake an ICC assessment and you can continue your flotilla holiday as skipper, with the support of our lead yacht crew. This tuition is offered as part of a 1 or 2 week flotilla holiday with the instructor usually staying on your yacht, or when based at Nikiana Club.

Pre-Flotilla ICC Course & Test 6 Days

For the sailing novice or less experienced sailor, this course will give you all the skills you need to join a flotilla as skipper of your yacht. Course content is similar to the refresher course and can be combined as part of a 2-week flotilla holiday, either on our shared tuition yachts or on a privately chartered yacht. This course is also available based at Nikiana Beach Club.

RYA Competent Crew (Practical) 6 days – with 7 days accommodation onboard

This RYA course is ideal for teaching beginners or dinghy sailors all the basics required to be competent crew members. It covers yacht handling under sail and power, rope work, man overboard procedures, mooring and anchoring, rowing a dinghy and assisting with day-to-day onboard routines.

The RYA Competent Crew Handbook is recommended pre-course reading.

RYA Day Skipper (Practical) 6 days – with 7 days accommodation onboard

The next step up for those with crewing experience, this RYA accredited course is designed to develop the competence and confidence required to skipper a yacht. The recommended previous experience for this course includes 5 days on board a yacht, 100 sea miles, and 4 night hours sailing. Ideally you will have taken the RYA day skipper shore based theory course, or be able to demonstrate a corresponding level of knowledge. Course content follows the standard RYA syllabus.

RYA Coastal Skipper (Practical) 6 days – with 7 days accommodation onboard

These courses are for more experienced sailors only. This is an advanced course where you learn the skills you need to skipper a yacht safely by day or night throughout the Mediterranean or other further afield. Previous experience recommended: 15 days at sea, 2 days as skipper, 300 Sea miles and 8 night hours. Also note that the distinction between tidal and non-tidal courses has been abolished, so courses now include tidal elements. Ideally students will have taken the RYA shore based Coastal Skipper/Yacht Master theory course or should be able to demonstrate a corresponding level of knowledge.

Theory Courses Up to 5 days

During the winter we offer shore based theory courses in the UK including day skipper theory, Coastal Skipper/Yachtmaster theory, RYA marine VHF radio & First Aid courses. On-line course are also offered.

Also on offer are 'Milebuilder' and 'Experience Yachting' cruises on our tuition yacht, with longer itineraries available. Please call for details.

RYA Dinghy & Windsurfing Courses Up to 5 days

We offer a range of dinghy sailing and windsurfing courses at Nikiana Beach Club on Lefkas Island. These include beginner and intermediate courses as well as assessments. Minimum course duration: 16 hours.

RYA Power Boat Courses Up to 5 days

We also offer powerboat courses at Nikiana Beach Club up to ICC level (International Certificate of Competence) including basic navigation, advanced boat handling skills and safety procedures. Courses offered include safety boat.

RYA Dinghy Instructor Duration subject to previous experience.

CABIN CHARTER IN THE GREEK ISLES – DISCOVER HIDDEN GREECE

THE WEATHER

The season runs from late April to the end of October with temperatures ranging from the mid-20s in early and late season up to the 30s in late June through August. You can count on reliable sunshine. Winds are variable according to area and time of the season, with moderate to fresh winds (force 3-6+). The Ionian generally offers more moderate conditions and light winds.

Whether you call it 'Cabin Charter' or 'Share a Sail', exploring the Greek Isles on a larger sailing yacht run by a professional crew and bookable by the cabin can be the ideal solution for those not wishing to charter a yacht themselves. Whether for individuals, couples or small groups of friends or family with or without sailing experience, sailing in the company of a professional crew has many advantages. You visit a mixture of some famous and several 'off the beaten track' islands, giving the opportunity to visit and discover some true hidden gems, beyond the reach of most visitors. The crew know the area you are exploring intimately, are highly experienced and capable, doing all the hard work, whilst still giving you the opportunity to be involved in the sailing if you wish.

FLOTILLA

IONIAN ISLANDS

FLOTILLA IONIAN ISLANDS

These Ionian Seas offer a stunning combination of cruising opportunities. At one extreme you can still discover uninhabited islands and hidden away coves. At the other you have harbour sides full of Venetian charm and sophistication. In between; translucent waters, pretty villages, short passages and clement conditions, ideal for the more relaxed sailor.

On our Kefalonia flotilla, we circumnavigate this scenic island over a week, taking in Fiskardo, Assos, Lixouri and Sparta whilst on the other week, we head south to Poros and on to Aghios Nikolaos and Zakynthos Town on the island of Zante with the opportunity to explore East to the Peloponnese coast and onwards to Ithaka.

On our Lefkas flotilla, sailing from our base at Lefkas we plot a course for the pristine waters of Meganisi and onwards to the sophistication of Fiskardo and the picture postcard beauty of Kioni on Ithaca. Week two explores the south coast of Lefkas, with Sivota and Vassiliki within reach before heading to the unspoilt islands of Kastos and Kalamos.

Each island has its own unique allure as part of the patchwork Ionian experience. You can swim in iridescent waters, explore timeless villages set amongst olive groves and vineyards, then indulge in the tastes and flavours of native Greece in traditional tavernas and lively bars. It's a wonderful fusion of ease and adventure.

SAIL & STAY

The verdant island of Lefkas and neighbouring Meganisi are still more popular with locals than foreigners which ensures you can still find authentic local cuisine. Why not combine a week on flotilla with a week ashore to explore the delights of this beautiful area. Our Nikiana Beach Club is convenient and ideal if you still want to do some sailing with a great range of kit on offer. Alternatives include private villas and a choice of hotels in Lefkas and Kefalonia to suit most budgets. Simply call us to discuss your requirements and leave the rest to us.

FLOTILLA

THE DODECANESE ISLANDS

FLOTILLA THE DODECANESE ISLANDS

We have long been fans of this beautiful and historic area which, until recently, had been the preserve of savvy bareboat clients who have already discovered the tremendous amount that this beautiful area has to offer.

The combination of some of the better known and more cosmopolitan Greek Islands such as Rhodes, Kos, Symi or Patmos, with some of the smaller and lesser-known gems of the Dodecanese such as Nisyros, Lipsi, Leros or Halki make this an irresistible proposition for more experienced sailors.

You can be virtually assured of some consistent fresh winds, so you will be enjoying plenty of sailing, with wonderful destinations at the end of each day at sea.

Our home port alternates weekly between Rhodes and Kos ensuring we cover the best of the Dodecanese over 2 weeks.

SAIL & STAY

Rhodes and Kos are ideal island to spend a few extra days or a week as an addition to your Flotilla holiday. We offer a great choice of beach or town hotels or you can combine your flotilla holiday with a week at our high performance windsurfing beach club in Kefalos Bay, (see website) for details.

FLOTILLA

THE SPORADES

FLOTILLA

THE NORTHERN SPORADES & GULF OF PELION

Now most definitely ‘off the beaten track’ Greece, this coastline once played home not only to mythical Jason and his Argonauts, but was the spot where Achilles set sail to conquer Troy. The small islands here are beautiful with sandy beaches, wooded headlands and pretty villages. It’s a ‘must see’ area for Greece lovers with “must sail” waters for more experienced crews. From our peaceful homeport at Loutraki on Skopelos, a short ferry crossing from Skiathos, we take advantage of fresh sailing winds heading west to the more sheltered Gulf of Pelion. Our first stop takes us to Megali Ammos, perfect for our punch party. We then head into the gulf, visiting Paleo Trikeri, Amaliopoli and Orei on northern Evia heading back to Skopelos at the end of the week.

The Sporades cruise visits the village of Patitiri on Alonissos before heading to the island of Kyra Panagia and Planitis bay, a perfect location for a beach party and an evening under the stars. Easing back into civilisation, we stop in the pretty little village of Steni Vala before heading to Skopelos town for a great night out. Visit the “Mamma Mia” church on the way back to Loutraki where we enjoy a farewell meal all together in one of the excellent fish tavernas.

SAIL & STAY

The island of Skiathos is blessed with several fine sandy beaches and a good choice of hotels. Skopelos is quieter and arguably more scenic. On the mainland, the mountainous Pelion peninsular boasts spectacular scenery and some fine boutique hotels.

TURKEY

SEAFARING ON THE TURQUOISE COAST

The word 'turquoise' is often associated with these coastal Turkish waters - a translucent, iridescent, shimmering mirage of blues that constantly changes. The colour comes from the bright sunshine bouncing off the golden sands and rocks in shallow coves – this is a fabulous part of the world to explore, and many choose to return year after year. Get a little offshore and the cruising can become more challenging – with the reward for an exhilarating day of sailing coming in the shape of dinner and drinks in a solitary 'lokanta' in an idyllic secluded anchorage inaccessible by road, and so typical of this tranquil and unspoilt region.

We offer two flotillas this year operating from home ports of ORhaniye, north of Marmaris for the Carian coast, or the town of Fethiye for the Lycean coast, with a choice of one or two week itineraries. On selected dates, our Seven Capes two-week flotilla explores off the beaten track as far south east as the stunningly beautiful area around Kas and Kalkan. Bareboat charters operate out of Marmaris, Fethiye and Gocek for the Lycean Coast or Bodrum and Orhaniye for the Gulfs of Gokova and Hisaronu. We have limitless Sail and Stay choices, and also offer Gulet cruises through our Small Ship Adventures brochure.

SAIL & STAY

Try the Poseidon Resort Hotel at Selimiye in an idyllic beach-front location. We also offer resort hotels, villas and apartments near Marmaris, Daalyan and Fethiye and can tailor make arrangements to suit your requirements including a sightseeing break in Istanbul.

FLOTILLA

FRENCH RIVIERA – THE COTE D'AZUR

FLOTILLA FRENCH RIVIERA – THE COTE D'AZUR

Known as the playground of the rich and famous, it is also a fantastic sailing area, often overlooked by the charter industry. We have been promoting bareboat and skippered charters in this area for many years (as well as saving it for our own holidays) so it was a natural progression to offer a flotilla here. With its national parks and unspoiled offshore islands, historic towns and glitzy resorts, plus great shore-side facilities and arguably the best cuisine in the world, there are many good reasons to sail here.

You have a choice of two superb one week itineraries which can be combined for a wonderful two week holiday. Our first week explores westwards including Bandol, Cassis, The Isle Frioul and the spectacular Calanques coastal national park. For our second week we head east towards St. Tropez & Saint Maximes with Le Lavandou, Cavalaire and the Rade d'Hyeres plus the wonderful offshore islands of Port Cros and Porquerolles to tempt you.

CROATIA

SEAFARING IN THE WAKE OF MARCO POLO

This spectacular coast of 'a thousand islands' and its fabulous medieval walled cities of Dubrovnik, Split, Trogir and Kotor would have been a welcome sight for famed adventurer Marco Polo as he sailed back to his home port of Venice. We think you'll find the warm hospitality, relaxed charm and fine cuisine equally welcoming. There is a choice of cruising areas and bareboat charterers can sail from Biograd or Zaton for the Kornati islands, Dubrovnik for Southern Dalmatia & Montenegro, Split and Trogir for central Dalmatia or Pula for Istria. Wherever you sail you'll be amazed how nature blends with a rich culture and lavish elegance harking back to the glory days of the Venetian and Austro Hungarian Empires when these waters were the final leg of the Chinese Silk Route.

CROATIA FLOTILLA

During the summer, gentle northerly winds provide great sailing. Both our flotillas explore the wonderful national parks and UNESCO world heritage sites of the Dalmatian coast. Zaton is the base for the central Dalmatia with a choice of 1 or 2 weeks. either sailing towards Split and the southern islands, or exploring the beautiful Kornati national park to the north. Dubrovnik is the base for our southern Dalmatia flotilla which explores the Peljesac peninsular and the idyllic islands of Korcula, Lastovo and Mljet with a second week venturing south into fascinating and scenic Montenegro with its stunning bay of Kotor.

SAIL & STAY

Spending a week on flotilla followed by a week ashore can be the ideal combination. We can organise anything from a couple of days in historic Dubrovnik or Split to a week in a beach hotel, villa or apartment on an island such as nearby Brac or Korcula or along the mainland coast in places like Trogir, Primosten or Cavtat. Tailor making arrangements is our speciality so please give us a call to discuss the many options available.

SEAFARING IN THE BALEARICS - SPAIN

INTRO & MAP

The Balearic islands of Spain include Mallorca, Ibiza, Menorca and Formentera and it is possible to explore one or more of these islands over the course of your sailing holiday. Our charter and flotilla base is on Mallorca, the largest of the Balearic islands and is situated approximately 100 miles from the Spanish coast. It has a rich historic past, something that is evident across the island from the capital city Palma with its 13th century cathedral to the remains of a Roman theatre in Alcudia. As is common across Spain, the island also has its fair share of "fiestas" celebrating everything from the new pressing of olive oil, to art, culture, history and gastronomy. Whichever week you choose for your Mallorca flotilla holiday, you are virtually guaranteed of a party!

The sailing breezes in Mallorca are largely thermal, with onshore breezes in the morning as the land heats, with the opposite in the afternoon. Average sunshine of more than 9 hours a day make for a superb setting for your flotilla holiday.

SAIL & STAY

Mallorca itself is a very well-known tourist destination, and the island offers accommodation to suit all budgets, from the purpose built resorts to the exclusive boutique hotels, villas and apartments, there is an option for everyone. Further afield is the equally well known island of Ibiza, or the charming laid back Menorca, both within easy reach.

For those looking for a city break, an extension in either Valencia or Barcelona is possible, both cities offering a wealth of attractions, their own unique cultural offerings and historic, vibrant city atmospheres.

SECURITY DEPOSIT & YACHT DAMAGE PREMIUM

Although all yachts are comprehensively insured, a security deposit is required to cover the first part of any damage caused. For flotilla holidays and most bareboat destinations an optional Yacht Damage waiver or insurance Premium is charged which covers the excess or reduces the insurance excess to Eur500 in the event of accidental damage to the charter yacht, a third party yacht or for loss or damage to equipment. This premium is typically 10% of the deposit figure for 1 week and 15% for 2 weeks. Some bases charge a daily rate (Eur

20-35) according to the size of yacht chartered. This cover usually excludes the first Eur500 of any damage, and also loss of or damage to dinghy and outboard motor, anchor and chain or helmsman's seat for which you would be liable up to the maximum of Eur500, which you are required to lodge as a reduced security deposit. As an alternative to YDP, you will be required to lodge a refundable security deposit of typically £1000 (up to 34 ft), £1500 (35-39ft), £2000 (40-45 ft) and £2500 (46ft+) collected either pre departure or an arrival in resort. These deposit and YDP rates may vary in specific locations and for certain yacht types, especially catamarans. The applicable rate will be confirmed to you at the time of booking.

QUALIFICATIONS & SAILING EXPERIENCE DO I NEED?

Skippering a flotilla yacht is immensely enjoyable and relatively easy, particularly during the summer months when winds are steady and the weather reasonably predictable. On flotilla, the mostly relatively short passages between anchorages mean that willing helpers on-board will not become bored or restless. Skipper qualification requirements vary between countries and we recommend that the skipper has an

International Certificate of Competence (ICC) as a minimum, which is internationally recognised and is equivalent to the RYA Day Skipper practical qualification. In the Ionian in Greece and in Mid Dalmatia in Croatia where we operate RYA training centres, if you have only limited previous sailing experience possibly gained by dinghy sailing at local club level or perhaps acting as an occasional crew member on a cruising/racing yacht, we recommend you enrol on an ICC or RYA training course either pre departure or on arrival in resort, by prior arrangement with us. Crews sailing from bases such as The Dodecanese or Sporades in Greece, The Dalmatian coast of Croatia & Montenegro or the Carian coast of Turkey on flotilla or bareboat charter, can expect more challenging sailing. Therefore the formal qualifications plus a higher degree of sailing experience and navigational knowledge are usually required and recommended. In the absence of qualifications, in some areas, a resumé of your sailing experience backed up by a reference from a recognised sailing club may be accepted. This applies in the Caribbean, though generally not in the Mediterranean. Chartering larger yachts requires skippers with experience of handling yachts of a similar size and an internationally recognized qualification such as Coastal Skipper or higher may be required, though in general an ICC qualification is widely recognized and accepted. In all cases please check with us that you have appropriate qualifications and experience. Furthermore, original certificates must be taken with you when you travel, since authorities may ask to see them. Failure to produce original certificates may mean you are unable to act as skipper.

Towels are usually provided onboard (unless advised otherwise) beach towels are not provided, though can be purchased in advance. ITNERARIES

The Flotilla itineraries shown in this brochure are intended as a general guide. Our flotilla skippers are responsible to act with the safety and comfort of all persons in mind, as well as to protect the yachts and equipment on flotilla. They are permitted to vary the itinerary sailed if in their opinion the weather or operating conditions make this necessary and they will keep you advised of any changes in daily briefings.

YACHT INVENTORIES

Our yachts are thoughtfully designed and comprehensively equipped with an inventory specifically chosen for Mediterranean sailing holidays. Aboard each yacht you will find: Adult and children size life jackets, life harnesses, an inflatable dinghy (outboard either included or available at supplement), pilot book, navigation charts and equipment, cooking utensils and a full set of bed linen and towels. Fitted to each yacht are: Shower with hot water, deck shower, Bimini hood, an

electric fridge, a radio/CD player or media centre, GPS or chart-plotter and VHF radio. Most yachts are equipped with depth, log and wind instruments and autopilot. The inventory and specifications described within this brochure are given as a general guideline and a fair representation of the yachts and their equipment available from Seafarer Cruising & Sailing Holidays and our suppliers or agents. Specifications may change from one supplier to another. If confirmation of specific equipment is required on a particular boat we will be pleased to provide this in writing. Note: Whilst we endeavour to ensure that all flotilla yachts have holding tanks, on some bareboats or extra yachts hired-in for our flotillas, this cannot be guaranteed. It is noted that yacht crews are encouraged to use marina or shore facilities wherever possible.

MOORING CHARGES

You are responsible to cover mooring charges other than on the first and last night at base. Town quay mooring charges are generally moderate or sometimes free. Marina charges range from £1.00 - £2.00 per foot per night and most provide hot showers, toilets, a reception with currency exchange, water, shore power, shops, bars and restaurants. In Croatia, Spain & France marinas are common and the authorities encourage you to use them so you will need to budget for this. In Greece and Turkey marinas are less common, so mooring charges are considerably lower or sometimes free. Mooring at restaurant jetties is usually free if you eat at the establishment.

RESPONSIBLE TRAVEL

At Seafarer we endeavour to respect the natural environment in which we sail as well as the laws, people and culture of our host countries. On this basis our staff will advise on issues such as avoiding pollution through use of appropriate eco-friendly detergents on board our yachts, correct use of holding tanks and disposing of litter responsibly. We will also encourage you to conserve water which is an increasingly scarce resource in these communities and to sail rather than motor whenever possible. We will advise on local regulations of which you should be aware. Additionally, we actively promote the history and culture of our host countries and endeavour to participate positively in the local economy and communities. For example we try to make use of local suppliers, staff and materials wherever possible. We support local events as well as support and encourage local conservation or recycling initiatives. In this way we are hopefully doing our part towards the common goal of ensuring that these beautiful and largely unspoilt areas are there to be enjoyed by future generations.
